WHO SHOULD CONSIDER ACUPUNCTURE TREATMENT ?

Those with low back pain, have tried medication, surgery and other treatment, have received no relief.

Those with depression, anxiety, or stress that treatment has not worked for or who dislike the side effects of drugs.

Those who smoke or drink and who have not obtained satisfactory results from other treatments.

Those with chronic pain, chronic fatigue, energy loss, fibromyalgia, who are searching for relief.

Those who have seen medical doctors who say you must live with the problem and that there is no treatment that can be prescribed for it.

Those who feel desperate and failed to find relief for their symptoms or discomfort, the medical tests are often normal, all kinds of therapy have been tried, nothing has worked.
